

Intelligent FirmwerX

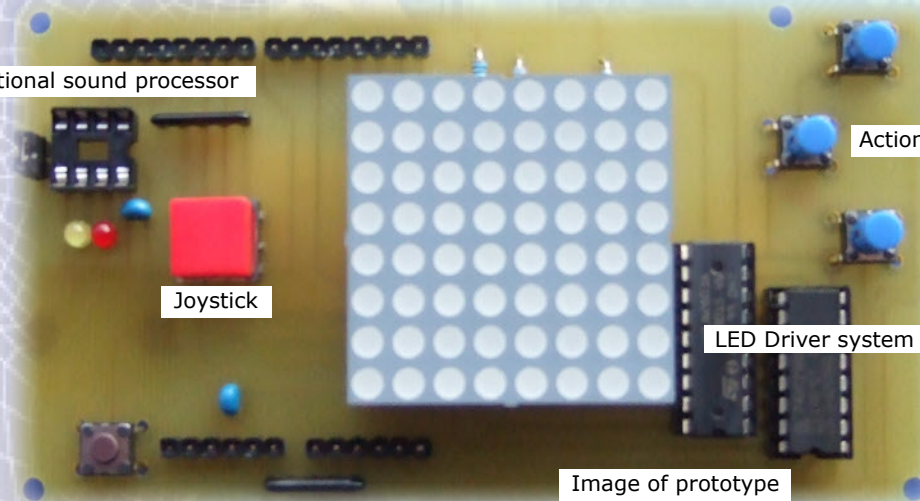

NEW

Intelligent FirmwerX has been designing and producing innovative electronic products for the Education Market for the last 10 years often in conjunction with other companies, such as Data Harvest [Learn & Go, Kids Chip, and SOLO]; Keep IT Easy and Kre8 [Brainy USB] and our own Flowic and eChip systems. All of which have been targeted at schools and hobbyists.

We are now pleased to release our first Arduino shield for schools and hobbyists alike. The eGamer shield is aimed at those who wish to develop a simple handheld gaming console.

We will be supplying the shield in kit form and a downloadable library via our web site.

Shield highlights:

Hardware

- 8x8 LED Matrix
- LED driver onboard
- 4 way Joystick
- 3 action buttons
- Piezo transducer for sound
- Optional 8-pin sound processor for playing tunes (Reduces Arduino overheads)
- Size: 115mm x 65mm

Software

- *EGamer* Library available
- *EGOS* (eGamer operating system) available for those don't want full on programming
- Future programming support from Keep IT Easy's Flowol™ 4 Flowchart programming system

For resellers we offer you access to the PCB design and optional sound processor for a 10% royalty fee, if you wish to create your own package
